EETO

PRODUCT DESIGN AWARD WINNER

Flair are proud to have received the Good Design Award accolade in recognition of the ETO shower door collection.

The Good Design Award is a seal of global design excellence and a testimony to our passion for product quality and innovation.

Flair is Proudly Supported by
The European Regional Development Fund

THE ETO[®] COLLECTION

Designed to fit perfectly into your bathroom routine, the robust design of the ETO collection is coupled with clever functional innovations that will ensure long lasting high performance in your home.

The uniquely crafted handle is beautifully precise and features a cleverly integrated towel hook. The sleek handle curvature creates a truly ergonomic and tactile experience for the user. The minimalist profiles and countersunk interior hinges complement the ETO handle design, creating an elegantly contemporary aesthetic.

The stylish yet functional simplicity throughout the ETO range embodies **Design with Purpose**, a concept which lies at the heart of the ETO collection.

DESIGN WITH PURPOSE

MAGNETIC INFOLD LINKAGE SYSTEM

The ETO Infold door features a pioneering magnetic linkage system which ensures the smoothest of motion as the door functions. The solid metal linkage arm is bonded directly to the glass and provides for an ultra minimalist infold door aesthetic. This innovative design removes the need for magnetic seals, giving a beautifully seamless glass edge on the door.

MAGNETIC CUSHION CLOSE DOOR SYSTEM

A concealed piston door close system gives ETO sliding doors a controlled and gentle close action. Double rollers with stainless steel ball bearings and a stainless steel wheel bracket design deliver an effortless sliding experience as the door glides along the magnetised rail.

PATENTED CLICK FIT ASSEMBLY SYSTEM

With our installers in mind, Flair have designed ETO with a patented "Click Fit" Assembly System.

This revolutionary assembly mechanism is screw free and ensures each door can be installed easily and securely.

The tapered dovetail joint locks securely into position, giving a seamless connection between the vertical and horizontal profiles. This pioneering installation system ensures maximum structural integrity within every door and makes ETO the shower door of choice for the busiest of bathrooms.

(European Application No 19170695.1)

ETO

INFOLD DOOR

The ETO Infold is the perfect blend of elegance with practical functionality.

This outward opening door protrudes minimally into the bathroom, saving on space. The unique Infold door design also affords generous access to the shower.

The ETO Infold features a pioneering magnetic linkage system which gives the door a perfectly smooth gliding action. This innovative design removes the need for magnetic seals on the glass, giving a beautifully seamless glass edge to the door.

As is standard across the ETO range, the Infold door is constructed from 8mm toughened safety glass with ClearVue hydrophobic coating. All interior fixings are fully concealed, making this shower enclosure as delightful internally as externally.

INTRODUCING ETO[®] BRUSHED BRASS

AWARD WINNING
PRODUCT DESIGNS

ETO[®]

Enhance your bathroom with the newly launched ETO Brushed Brass shower enclosure range.

The Flair design team are uncompromising in using the finest materials as they craft our signature product ranges. ETO brushed brass profiles have an anodised finish, which means they are superbly robust and will stand the test of time.

Anodising is an electrochemical process that converts the metal substrate to a corrosion resistant durable finish. The aluminium oxide is not just applied to the surface like a plating or coating, but it is fully integrated with the underlying aluminium substrate to avoid the risk of peeling or chipping.

The uniquely crafted ETO brushed brass handle has a PVD finish to ensure maximum durability in the busy bathroom environment. PVD technology is one of the most hard-wearing surface finish processes, whereby the original base material is permanently changed to the desired colour composition. This ensures that the surface will not wear off or degenerate over time.

The stylish yet functional simplicity throughout the ETO Brushed Brass range embodies Design with Purpose, a concept which lies at the heart of the ETO collection.

ETO BRUSHED BRASS COLLECTION

INFOLD DOOR

The ETO Infold is the perfect blend of elegance with practical functionality.

This outward opening door protrudes minimally into the bathroom, saving on space. The unique Infold door design also affords generous access to the shower.

The ETO Infold features a pioneering magnetic linkage system which gives the door a perfectly smooth gliding action. This innovative design removes the need for magnetic seals on the glass, giving a beautifully seamless glass edge to the door.

As is standard across the ETO range, the Infold door is constructed from 8mm toughened safety glass with ClearVue hydrophobic coating. All interior fixings are fully concealed, making this shower enclosure as delightful internally as externally.

HINGE & INLINE DOOR

The impressive ETO Hinge and Inline door is the perfect option for those larger luxurious bathroom spaces.

The flawless semi framed profiles give this door a robust feel, whilst the crafted ETO handle provides optimal functionality with its integrated towel hook design.

Designed with purpose, the softly curved hinges are countersunk into the glass and their flush interior finish allows for ease of cleaning. As is standard across the ETO range, this door comes with ClearVue glass coating which repels grime and limescale build up.

ETO BRUSHED BRASS COLLECTION

SLIDING DOOR

With minimalist profiles surrounding 8mm toughened safety glass, the ETO Sliding is designed with long lasting durability in mind.

The sliding door glass is guided by stainless steel wheel brackets which provide an effortlessly smooth experience. The magnetic cushion close mechanism ensures a controlled and gentle action as the door opens and closes.

The curvature of the crafted ETO handle feels beautifully precise in hand, whilst also doubling up on functionality with its integrated towel hook design.

ETO BRUSHED BRASS COLLECTION

ONE DOOR QUADRANT & OFFSET QUADRANT

The ETO One Door Quadrant and Offset Quadrant are perfectly shaped to make the most out of a corner bathroom space.

Ideal for larger bathrooms, the innovative magnetic cushion close feature ensures a smooth rolling door action on this offset quadrant. The double wheel rollers have a stainless steel composition for longevity and their quick release design allow for ease of cleaning.

ClearVue hydrophobic coating on the 8mm toughened safety glass resists the build up of grime and limescale on the glass surface. The centrally positioned door opening provides easy access to the shower space and is considerate of furniture positioning within the bathroom.

BRUSHED BRASS ONE DOOR OFFSET QUADRANT

BRUSHED BRASS ONE DOOR QUADRANT

QUALITY GUARANTEED

At Flair we have an unwavering commitment to product quality.

All Flair Shower doors and wetrooms are CE approved and manufactured in accordance with ISO 9001:2000 Quality Assurance systems. All glass is toughened safety glass and produced to EN12150.

Flair products are performance tested to EN14428. Shower doors and rotating wetroom panels have been subject to lifetime shower door cycle testing consisting of 20,000 functional cycles.

Flair Shower doors and rotating wetroom panels have also been tested for their durability, stability, and water retention properties to ensure that they meet the highest possible industry standards. Water is maintained where conventional showering practices are used and the product has been fitted in accordance with the Flair Fitting Instructions. Please note - Due to the weight of certain products, they may require a two man lift.

Images shown in this catalogue are for illustrative purposes only. All descriptions contained in this catalogue are for the purpose of explaining each product more clearly and do not form part of any contract with the company.

Guarantee

ORO & ETO Shower Doors are covered by a lifetime guarantee against manufacturer defect. A lifetime guarantee constitutes a term of 20 years. AYO Wetrooms and Bathscreens are covered by a 20 year guarantee against manufacturer defect. Shower Trays are subject to manufacturer guarantee. All guarantees are valid on the condition that goods are installed and maintained in accordance with the products fitting instructions and best practices. This guarantee is for domestic use only.

***Note: Non glass and detachable parts such as seals and cover caps are subject to normal wear and tear during usage and are under statutory guarantee for 2 years from time of purchase. Glass shattering is not subject to Lifetime guarantee.**

We ask our customers to register their guarantee online at www.flairshowers.com or return the guarantee card that comes with every Flair product.

After-sales & Spare Parts service

Flair Showers are 100% committed to customer service excellence. For ultimate peace of mind, a comprehensive range of spare parts is available for all Flair product ranges. If you would like to talk to an aftercare specialist about your Flair product, please contact us on (Ireland & Northern Ireland) +353 42 966 8000 or (UK) 0800 1800 8050.

Return Policy

Flair will not accept return of any product that has been opened. We do not accept return of any product if the packaging has been damaged. If the product is unopened and not damaged, we will accept the return of the product but a handling fee of 25% of the invoice price will be charged.

Cleaning Guidelines

- Glass: Use a soft cloth and warm soapy water; rinse off thoroughly.
- Metallic Surfaces: Use a soft cloth and warm soapy water; rinse off thoroughly.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product. These include acidic based cleaning products, bleaches, solvents or abrasive pads.
- In hard water areas, regular cleaning of your Flair door will help to prevent the build-up of limescale. Stubborn deposits of limescale can be removed with warm soapy water.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit / dirt which may have collected over time.

Installation

Full installation instructions are provided with each product to ensure correct installation. All Shower doors and wetroom panels are adjustable between the dimensions stated. All dimensions are approximate.

Shower Tray Installation

All shower trays must be installed as per instructions supplied. Install on a base of fine sand, cement and cement additive. Please note: Silicone sealants, foams, mastics, installation compound adhesive or similar must not be used as a substitute for cement. Ensure shower tray is 100% level and water test to ensure water is draining correctly. If not satisfied at any stage do not proceed with fitting. Fitting of Shower Tray is acceptance of quality.

Conditions of Sale

Unless otherwise stated, all price quotations are subject to acceptance within 30 days of date of issue. Other than in the case of faulty goods / incorrect despatch, Flair will not accept the return of any product.

AS PART OF OUR CONTINUING POLICY OF PRODUCT IMPROVEMENT, WE RESERVE THE RIGHT TO AMEND SPECIFICATIONS, COLOURS AND PRICES WITHOUT PRIOR NOTICE.

*Errors and Omissions Exempt.
