CREATING  
PERFECT  
HARMONY™

AYYO

## GOOD DESIGN AWARDS SUCCESS

Founded in Chicago in 1950, the Good Design awards honour product in design and manufacturing that have chartered a new direction with pioneering innovation. The jury awarded this prestigious accolade to AYO in recognition of its carefully considered design aesthetic coupled with the highest degree of functionality. Flair are passionate in our quest for meaningful design innovation and are proud to have received this seal of global design excellence for our latest product collection.

## THE AYO<sup>®</sup> COLLECTION

The AYO Modular Wetroom Collection is crafted to create a truly personal shower experience for you.

With an almost infinite choice of wetroom configurations, AYO Modular provides maximum flexibility as you personalise your dream shower space. Standing tall at a height of 2 metres, AYO comes in 8mm and 10mm toughened safety glass which is treated with a hydrophobic coating that resists the build up of grime and lime scale. An array of fixture innovations such as flush wall profiles, clever ultra-clear seals and stylish stabilising bars provides maximum versatility as each wetroom aspiration becomes the reality.

The AYO Wetroom collection is available in Silver and Black profile colour as standard, with an almost infinite number of wetroom configurations possible in these finishes. To ensure perfect integration in your bathroom design, AYO is available in 4 additional premium finishes that will pair perfectly with other signature elements in your bathroom interior. Choose from Brushed Brass, Matte Nickel, White, Polished Gold and Polished Stainless Steel to create your perfect bathroom retreat.

Mindfully designed, this comprehensive Wetroom Collection enables the creation of practical yet supremely elegant shower sanctuaries for you to enjoy.

AYO by Flair – Creating perfect harmony.

# INTRODUCING AYO®

Satisfying the balance between luxury and versatility, **AYO** is an iconic range designed to transform your bathroom into the most perfect retreat.

The AYO Wetroom collection is available as standard in Silver and Black profile finishes, with an almost infinite number of wetroom configurations possible. The **NEW AYO Colour** collection offers 5 additional luxury finishes that will pair perfectly with the signature elements in your bathroom.

Enjoy extra design freedom by selecting from the following premium colour finish options;

- Brushed Brass (PVD)
- Matte Nickel (PVD)
- Polished Gold (PVD)
- Polished Stainless Steel\*
- White

With an unwavering focus on product quality, **AYO Colour** uses PVD technology to achieve an exceptionally durable surface finish. The PVD coating is applied to high grade 304 stainless steel base materials. The result is a superbly robust and hardwearing wetroom designed to stand the test of time. Testament to the quality of the surface finish, all **AYO Colour Wetrooms** are supplied with a Flair 20 year guarantee.

#### The Perfect Colour Match – Every time

The PVD process allows Flair to more precisely match all **AYO Colour** sub-assemblies such as the wall profiles, cover caps and stabilising bars.

# AYO<sup>®</sup> COLOUR

## THE PVD PROCESS EXPLAINED

### PVD - PHYSICAL VAPOUR DEPOSITION

PVD is a technique that applies colour on an atomic level to a base surface inside a vacuum chamber. This process physically changes the original base material to the desired colour composition, meaning that the surface won't wear off or degenerate over time.

PVD is one of the most durable colouring technologies being up to 3 times harder and 10 times more scratch resistant than the alternative surface options.

## INFLUENCED BY SIMPLE AESTHETICS

The PVD Finish extends across a select offering of AYO components that includes a 15mm Wall Profile, 1200mm Straight Stabilising Bar, 650mm Angled Stabilising Bar and T Piece.

For PVD Colour Product offering information  
Please see page 101

# STABILISING SOLUTIONS

The subtle contours of each AYO stabilising bar delivers the perfect blend of form and function. Each fixation bracket is masterfully engineered for durability, with screw points discreetly concealed from view.

An array of Stabilising solutions are available in the standard Stainless Steel and Black options.

## AYO COLOUR

Note: The following stabilising bar options are available in White Brushed Brass, Matte Nickel and Polished Gold PVD finish:

- 1200mm Straight Stabilising Bar
- 650mm Angled Stabilising Bar
- T Piece

# THE AYO® 8MM FRAMED COLLECTION MATTE BLACK ONLY

The contemporary industrial aesthetic inspired by factories and warehouses is now an established trend in bathroom design. With this in mind, the AYO Framed collection is carefully curated to deliver a striking look in the showering zone.

Standing at impressive 2 metres tall, each AYO Framed screen is coated with a Hydrophobic coating to repel against unwanted grime and limescale.

Silk screen print technology enables the interior of all AYO framed screens to retain a flush finish for ease of cleaning and maintenance. Each 8mm toughened glass panel is firstly **silk screen printed** with the black framed design applied to the glass exterior. **Black anodised metal profiles** are then bonded to the exterior of the glass panels.

Expertly designed each AYO glass panel is fully surrounded by a robust metal frame, providing maximum durability for the hardworking bathroom environment.

|   |                                    |                      |   |

**Matte Black Anodised Finish Explained**  
Anodising is an electrochemical process that converts the metal surface to a durable, corrosion resistant, anodic oxide finish. The aluminium oxide finish is not just applied to the surface like a paint or plating, but it is fully integrated with the underlying aluminium substrate so that it cannot chip or peel.

For AYO FRAMED, this means a superbly robust product that is designed for the busiest of bathroom environments.

FRAMED WETROOM  
CONFIGURATION 5

LINEAR FRAMED CORNER  
WALK IN WETROOM

# FRAMED CORNER WALK-IN WETROOM

Make a visual statement by choosing a sleek and stylish AYO Framed Corner Walk in wetroom.

The black anodised metal profiles fully surround each glass panel and ensure maximum durability in the busy bathroom environment. These AYO Framed fixed glass panels form a luxurious wetroom arrangement that minimises water spray into the bathroom. Easy to clean, each glass panel retains its flush interior finish and has the added bonus of a hydrophobic coating that repels unwanted grime and limescale.

Choose from two striking design options - The Framed Wetroom or Linear Framed Wetroom style.

# QUALITY GUARANTEED

At Flair we have an unwavering commitment to product quality.

All Flair Shower doors and wetrooms are CE approved and manufactured in accordance with ISO 9001:2000 Quality Assurance systems. All glass is toughened safety glass and produced to EN12150.

Flair products are performance tested to EN14428. Shower doors and rotating wetroom panels have been subject to lifetime shower door cycle testing consisting of 20,000 functional cycles.

Flair Shower doors and rotating wetroom panels have also been tested for their durability, stability, and water retention properties to ensure that they meet the highest possible industry standards. Water is maintained where conventional showering practices are used and the product has been fitted in accordance with the Flair Fitting Instructions. Please note - Due to the weight of certain products, they may require a two man lift.

Images shown in this catalogue are for illustrative purposes only. All descriptions contained in this catalogue are for the purpose of explaining each product more clearly and do not form part of any contract with the company.

## Guarantee

ORO & ETO Shower Doors are covered by a lifetime guarantee against manufacturer defect. A lifetime guarantee constitutes a term of 20 years. AYO Wetrooms and Bathscreens are covered by a 20 year guarantee against manufacturer defect. Shower Trays are subject to manufacturer guarantee. All guarantees are valid on the condition that goods are installed and maintained in accordance with the products fitting instructions and best practices. This guarantee is for domestic use only.

**\*Note: Non glass and detachable parts such as seals and cover caps are subject to normal wear and tear during usage and are under statutory guarantee for 2 years from time of purchase. Glass shattering is not subject to Lifetime guarantee.**

We ask our customers to register their guarantee online at [www.flairshowers.com](http://www.flairshowers.com) or return the guarantee card that comes with every Flair product.

## After-sales & Spare Parts service

Flair Showers are 100% committed to customer service excellence. For ultimate peace of mind, a comprehensive range of spare parts is available for all Flair product ranges. If you would like to talk to an aftercare specialist about your Flair product, please contact us on (Ireland & Northern Ireland) +353 42 966 8000 or (UK) 0800 1800 8050.

## Return Policy

Flair will not accept return of any product that has been opened. We do not accept return of any product if the packaging has been damaged. If the product is unopened and not damaged, we will accept the return of the product but a handling fee of 25% of the invoice price will be charged.

## Cleaning Guidelines

- Glass: Use a soft cloth and warm soapy water; rinse off thoroughly.
- Metallic Surfaces: Use a soft cloth and warm soapy water; rinse off thoroughly.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product. These include acidic based cleaning products, bleaches, solvents or abrasive pads.
- In hard water areas, regular cleaning of your Flair door will help to prevent the build-up of limescale. Stubborn deposits of limescale can be removed with warm soapy water.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit / dirt which may have collected over time.

## Installation

Full installation instructions are provided with each product to ensure correct installation. All Shower doors and wetroom panels are adjustable between the dimensions stated. All dimensions are approximate.

## Shower Tray Installation

All shower trays must be installed as per instructions supplied. Install on a base of fine sand, cement and cement additive. Please note: Silicone sealants, foams, mastics, installation compound adhesive or similar must not be used as a substitute for cement. Ensure shower tray is 100% level and water test to ensure water is draining correctly. If not satisfied at any stage do not proceed with fitting. Fitting of Shower Tray is acceptance of quality.

## Conditions of Sale

Unless otherwise stated, all price quotations are subject to acceptance within 30 days of date of issue. Other than in the case of faulty goods / incorrect despatch, Flair will not accept the return of any product.

AS PART OF OUR CONTINUING POLICY OF PRODUCT IMPROVEMENT, WE RESERVE THE RIGHT TO AMEND SPECIFICATIONS, COLOURS AND PRICES WITHOUT PRIOR NOTICE.

\*Errors and Omissions Exempt.
