

A man with a beard is shown in profile, standing under a large, round, brass-colored showerhead. Water is spraying from the showerhead onto his head and shoulders. The background is a wall of vertical, rectangular tiles in shades of green and brown. To the left of the man, there is a smaller, round showerhead mounted on a vertical bar. In the bottom right corner, there is a brass-colored control panel with two large circular knobs and two smaller circular buttons. The overall lighting is warm and focused on the man and the showerheads.

AQUALISA

THE S RANGE

THE NEXT GENERATION OF SMART SHOWERS

Introducing the next
generation of smart showers

Your shower, your way.

Everyone in your home
can have their own
personal user routine.

We all shower differently. Steaming hot.
Warm and gentle. Cold and revitalising.
Short or long. Intense or relaxing.

Enjoy a personalised showering experience
with Aqualisa's new S Range of smart connected
showers. Set your preferred shower temperature,
flow and duration, with the Aqualisa app.*
It's quick and easy to set individual routines so
that everyone can enjoy their shower, their way.

* Feature on S2 and S3 only.

'I love an icy
post-workout blast'

Timer: OFF

'I just really like
the bubblyness'

BOBBY

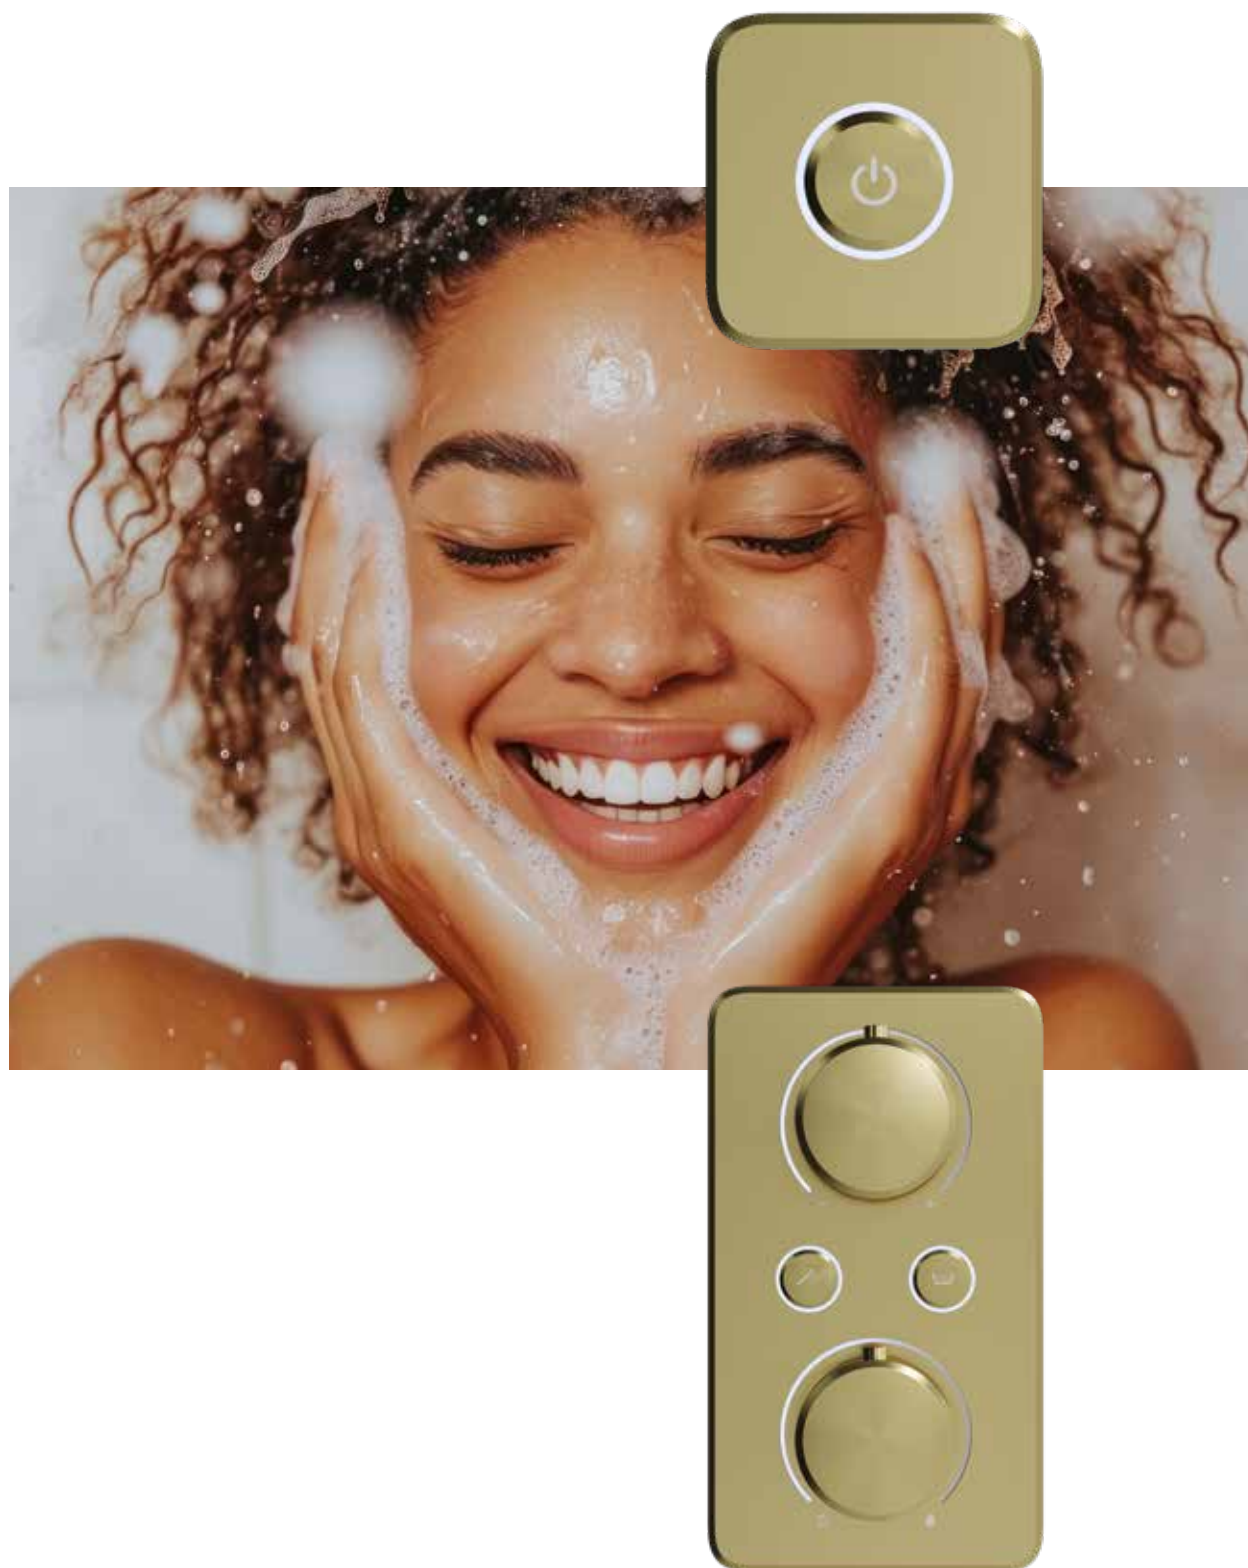

Flow : 50
Temp: 37°
Timer: 10.00

'I'd be in there all day
without the timer'

SUZIE

Flow : 100
Temp: 39°
Timer: 5.00

AQUALISA

Start smart.
At the temperature you want.
No need to test the water.

Imagine the convenience of starting the shower remotely, knowing it will be at the exact temperature you want before you get in. The clever Aqualisa Smart Valve™ checks the temperature 10 times a second to ensure there are no hot or cold blips. You don't need to stick your hand in to check.

Use the Aqualisa app or ask your smart speaker - 'Alexa, start my shower'.

So easy, even a child...

Simplicity comes first. If you prefer, just step in and easily adjust the illuminated buttons and dials for your perfect shower. With the Shower Lock feature, your shower controls can be locked for additional safety, making it ideal for multi-generational households.

The Aqualisa S Range offers the latest in smart digital control, with the familiar ease of analogue.

You're in control.
Of everything.

Monitor your water use.

The app tracks your estimated water use to help you manage energy and water bills. Dive into the data. Track the household trends over weeks and months.

Maybe the teenager in the house needs a time limit?

If endless showers have become the norm, use the app to set showering times for all family members. Save water - and keep the peace!

Set personal routines quickly and easily.

If Dad wants a quick cold burst after a morning run, and a long steamy shower before bed, he can set both. There's no limit.*

Complete control, at your fingertips.

Want to create the right atmosphere? No problem. Control the brightness of the display and choose from a range of coloured mood lighting.

*Feature on S2 and S3 only

Fall in love with your shower all over again.

With a smart shower from Aqualisa, you take the guesswork out of your perfect showering experience. It will always be just the right temperature. And you are in complete control of how you use it.

Beautiful to look at and highly intuitive, the S Range is the most advanced smart digital shower available. An essential addition to your bathroom and to your everyday routine. Quite simply, your shower, your way.

Welcome to the Aqualisa S Range.

Welcome to the Aqualisa S Range.

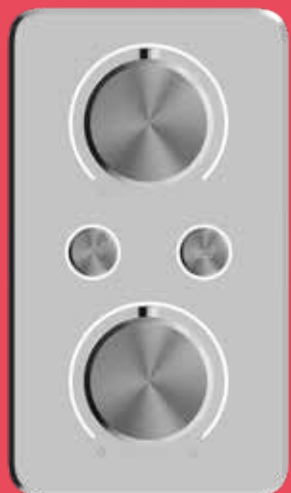

Choose your model:

S1

With illuminated dials and push buttons, the S1 offers a simple and intuitive way to enjoy a smarter showering experience.

Turn on and step in, the S1 will take care of the rest.

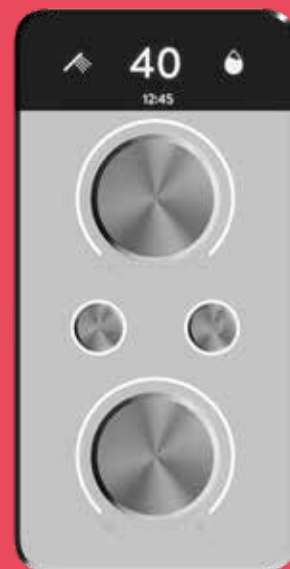

For full list key features see page 25.

S2

The S2 takes smart showering to the next level with its sleek controls and precise digital temperature display. Everything is illuminated and easy to use, from diverting between outlets to adjusting the flow.

For full list key features see page 35.

S3

A distinctive horizontal controller marks the S3 as a sophisticated stand-out when it comes to connected showers.

With a high-definition glass display that can be completely customised, the S3 is as stunning as it is smart.

For full list key features see page 45.

Choose your Configuration

Every S Range shower can be configured to suit your bathroom and how you like to shower. Match a ceiling or wall-mounted drencher with a high-performance handset for a choice of showering modes. Short of space? Then add a bath filler for combined shower-bath solutions.

Each shower kit comes with its own controller and your choice of the following components:

All of the Aqualisa components come in the same four finishes as the Smart Controllers. (See page 18).

CEILING-MOUNTED OVERHEAD DRENCHER

450mm ceiling arm can be adjusted to suit your bathroom requirements.
Head sizes:
S1 - 300mm. S2 - 350mm. S3 - 400mm.

BATH FILLER

An **optional** addition for combined shower-baths.

WALL-MOUNTED OVERHEAD DRENCHER

400mm easy-fit wall arm.
Head sizes:
S1 - 300mm. S2 - 350mm. S3 - 400mm.

WIRELESS REMOTE CONTROL

An **optional** addition for the S1 shower, the wireless remote will turn the shower on and off from up to 10 metres away. Also compatible with S2 and S3.

HANDSET

Three-spray, 120mm handset, included with every S Range shower kit.

S2

S3

WIRED REMOTE CONTROL

An **optional** addition for the S2 and S3 showers, the wired remote will provide control of the shower.

The S Range Finishes

All of the S Range components come in the same choice of four finishes as the S1, S2 and S3 smart controllers. From classic Chrome to on-trend Matt Black, sleek Gunmetal Grey to the sophistication of Brushed Brass, there's a stylish finish to suit your scheme.

Technical Specifications

SmartValve™ Features

Explore the benefits of the Aqualisa SmartValve™

Thermostatic precision.

The intelligent Aqualisa® SmartValve™ checks and regulates the temperature 10 times every second.

Saves water and money.

With the Aqualisa® app, you can monitor the water you and your family uses each day, allowing you to help the environment and save money too.

Installation options.

The SmartValve™ can be fitted up to 10 metres away from your shower. Whether located under the bath, in the airing cupboard or up in the loft, it is easy to install, connect and set up.

Works with any water system.

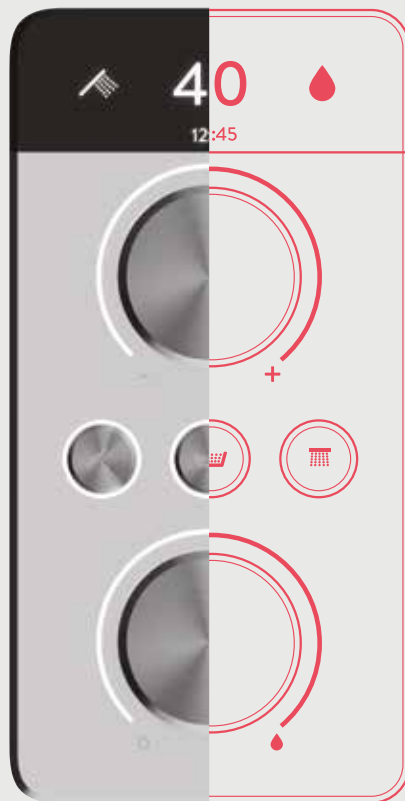

Compatible with all standard UK water systems. Gravity variant comes with integral pump.

HP / Combi

Gravity Pumped

Designed in Britain and built to last.

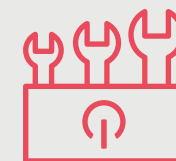

The Aqualisa S Range represents the best in smart shower technology and is designed in Britain to the highest standards.

Certified quality, guaranteed.

The Aqualisa S Range has been certified by the Water Regulations Approval Scheme (WRAS), an independent, UK-based certification body. WRAS-approved products have been thoroughly checked to ensure they keep water safe from contamination, minimise waste and are of a suitable quality, complying with the legal Water Supply and Water Fittings Regulations.

Every product is fully tested before it is carefully boxed in 100% recyclable packing. What's more, Aqualisa offers a five-year warranty on the S Range controller and SmartValve™, backed by exceptional UK-based customer support, for complete peace of mind.

Easy installation.

The intelligent Aqualisa SmartValve™ can be fitted up to 10 metres away from your shower. Whether located under the bath, in the airing cupboard or up in the loft, it is easy to install, connect and set up.

Saves water and money.

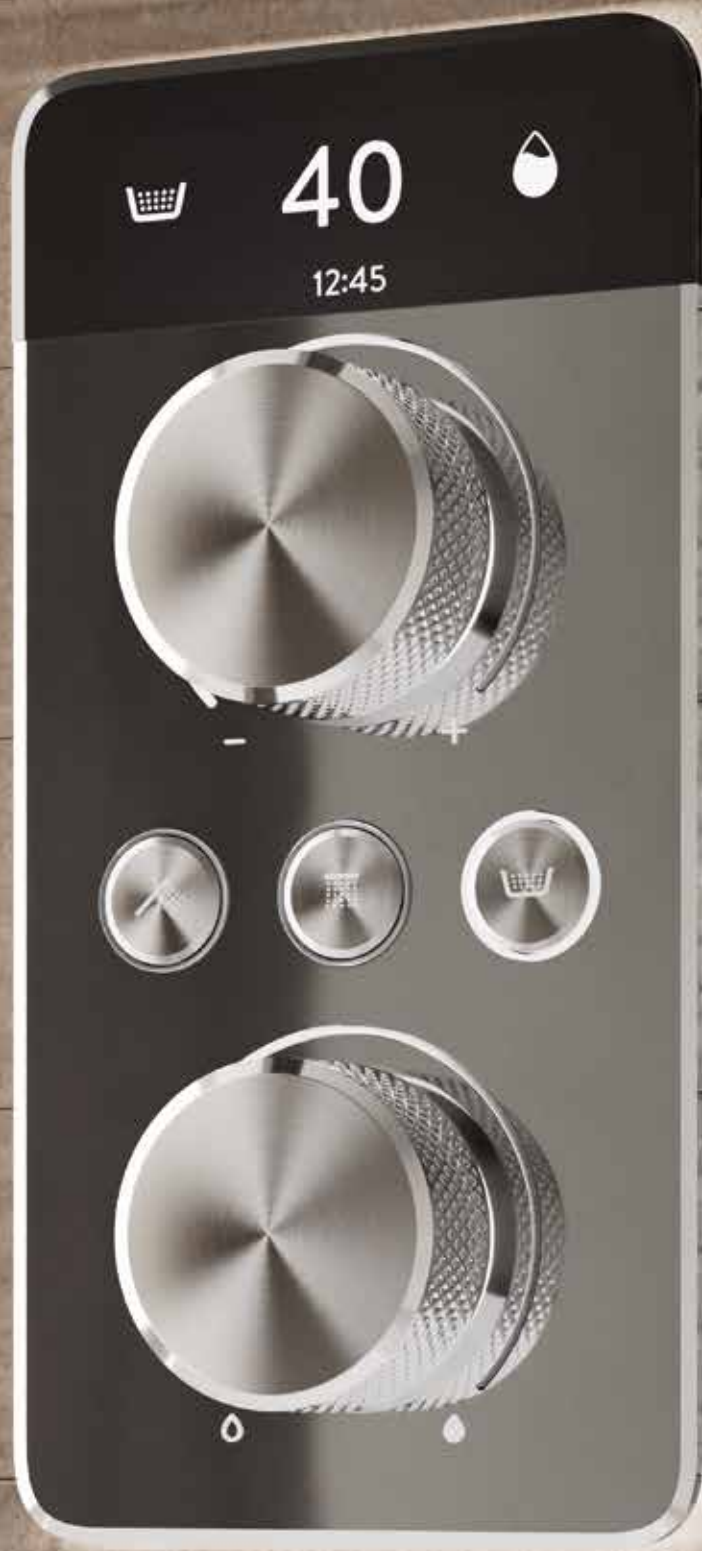

With the Aqualisa app, you can monitor the water you and your family uses each day, allowing you to both save money on household bills and help the environment.

And you can go further – setting the shower's SmartValve™ to eco mode can reduce water flow by up to 33%, using as little as 8 litres per minute.

Works with any water system.

The S Range showers are available with two different SmartValves™ to suit your water system. An un-pumped variant for high pressure and combi boiler systems and an integrally pumped variant for a gravity system.
